

# LiteAire® MDI Holding Chamber

## Collapsible MDI Holding Chamber:

- Dual Valved
- Labeled for One Week's Use
- Pop Up to Use
- Not Made With Natural Rubber Latex
- Portable/Stores Flat
- Single Patient Use
- Compatibility With Commonly Prescribed MDIs

### An Innovative Alternative

In most clinical settings, the LiteAire® MDI holding chambers can reduce costs by replacing existing rigid plastic holding chambers or inefficient spacers with a paperboard alternative. This Unique paperboard design allows the LiteAire® to be re-used by a patient over multiple doses while meeting, and often exceeding, the performance of plastic holding chambers.

### The LiteAire® delivers true value when used in:

**Emergency Rooms** - For patients requiring the use of a holding chamber for immediate treatment; ideal for isolation room conditions.

**Inpatient/Outpatient Pulmonary Function Testing Labs** - Clean, disposable, ready to use and designed to accept most pressurized metered dose inhalers (MDIs).

**Short-Term Respiratory Infections** - A cost effective treatment method that meets the short-term needs of patients with acute respiratory conditions.
